

android::app::Application

mono.android.IGCUserPeer

crc6488302ad6e9e4df1a.Maui  
Application

```
graph BT; Maui[crc6488302ad6e9e4df1a.Maui Application] --> Android[android::app::Application]; Maui --> Mono[mono.android.IGCUserPeer];
```

The diagram illustrates the inheritance structure of the Maui Application. At the bottom, a grey box labeled 'crc6488302ad6e9e4df1a.Maui Application' has two blue arrows pointing upwards. One arrow points to a white box labeled 'android::app::Application' on the left, and the other points to a white box labeled 'mono.android.IGCUserPeer' on the right. This indicates that the Maui Application inherits from both the Android Application class and the Mono IGCUserPeer interface.
