

androidx::swiperefreshlayout
::widget::SwipeRefreshLayout

mono.android.IGCUserPeer

crc6452ffdc5b34af3a0f.Maui
SwipeRefreshLayout

```
graph BT; Maui[crc6452ffdc5b34af3a0f.Maui SwipeRefreshLayout] --> AndroidX[androidx::swiperefreshlayout::widget::SwipeRefreshLayout]; Maui --> Mono[mono.android.IGCUserPeer];
```

The diagram illustrates a relationship where the Maui class (identified by the CRC64 hash 52ffdc5b34af3a0f) inherits from or depends on two classes: androidx::swiperefreshlayout::widget::SwipeRefreshLayout and mono.android.IGCUserPeer. The Maui class is represented by a grey box, while the other two are in white boxes. Blue arrows point from the Maui box to each of the other two boxes.
