The diagram illustrates a class hierarchy. At the bottom is a gray box representing the base class, 'crc640ec207abc449b2ca.Shell FlyoutRenderer'. Two blue arrows point upwards from this base class to two separate white boxes above it. The left white box contains the text 'androidx::drawerlayout ::widget::DrawerLayout', and the right white box contains 'mono.android.IGCUserPeer'. This indicates that 'FlyoutRenderer' inherits from both of these classes.
