The diagram illustrates inheritance relationships between three classes. At the bottom is a gray box containing the class `crc64e1fb321c08285b90.List ViewRenderer_SwipeRefreshLayout WithFixedNestedScrolling`. Two blue arrows originate from this box: one points to the top-left box containing `androidx.swiperefreshlayout.widget.SwipeRefreshLayout`, and the other points to the top-right box containing `mono.android.IGCUserPeer`. This indicates that the bottom class inherits from both the top-left and top-right classes.
