

java.lang.Object

mono.android.IGCUserPeer

crc6477f0d89a9cfd64b1.Object
JavaBox_1

```
graph BT; A["crc6477f0d89a9cfd64b1.Object<br/>JavaBox_1"] --> B["java.lang.Object"]; A --> C["mono.android.IGCUserPeer"];
```

The diagram illustrates a class hierarchy. At the bottom is a gray box representing a concrete object instance, labeled 'crc6477f0d89a9cfd64b1.Object' and 'JavaBox_1'. Two blue arrows point upwards from this object to two separate white boxes above it. The left white box is labeled 'java.lang.Object', and the right white box is labeled 'mono.android.IGCUserPeer'. This indicates that the object instance implements or inherits from both the 'java.lang.Object' class and the 'mono.android.IGCUserPeer' interface.
