

android::webkit::WebView

mono.android.IGCUserPeer

crc6452ffdc5b34af3a0f.Maui  
WebView

```
graph BT; Maui[crc6452ffdc5b34af3a0f.Maui WebView] --> Android[android::webkit::WebView]; Maui --> Mono[mono.android.IGCUserPeer];
```

The diagram illustrates a class hierarchy or inheritance structure. At the bottom, a gray box represents the base class: `crc6452ffdc5b34af3a0f.Maui WebView`. Two blue arrows point upwards from this box to two separate white boxes at the top. The left white box contains the text `android::webkit::WebView`, and the right white box contains the text `mono.android.IGCUserPeer`. This indicates that the Maui WebView class inherits from or implements both the Android WebView and the Mono IGCUserPeer interfaces.
