

androidx::appcompat
::widget::SearchView

mono.android.IGCUserPeer

crc6452ffdc5b34af3a0f.Maui
SearchView

```
graph BT; Maui[crc6452ffdc5b34af3a0f.Maui SearchView] --> androidx[androidx::appcompat::widget::SearchView]; Maui --> mono[mono.android.IGCUserPeer];
```

The diagram illustrates a class hierarchy or inheritance structure. At the bottom is a grey box representing the base class: `crc6452ffdc5b34af3a0f.Maui SearchView`. Two blue arrows point upwards from this box to two separate white boxes above it. The left white box represents the `androidx::appcompat::widget::SearchView` class, and the right white box represents the `mono.android.IGCUserPeer` class. This indicates that the Maui SearchView class inherits from or implements both of these parent classes.
