

android.webkit.WebChrome  
Client

mono.android.IGCUserPeer

crc6477f0d89a9cfd64b1.Forms  
WebChromeClient

```
graph BT; A[crc6477f0d89a9cfd64b1.Forms WebChromeClient] --> B[android.webkit.WebChrome Client]; A --> C[mono.android.IGCUserPeer];
```

The diagram illustrates inheritance relationships between three classes. At the bottom is a gray box representing the base class: `crc6477f0d89a9cfd64b1.Forms WebChromeClient`. Two blue arrows point upwards from this box to two white boxes above it. The left white box represents `android.webkit.WebChrome Client`, and the right white box represents `mono.android.IGCUserPeer`. This indicates that the base class inherits from both of these parent classes.
