

android::animation  
::AnimatorListenerAdapter

mono.android.IGCUserPeer

crc64338477404e88479c.Generic  
AnimatorListener

```
graph BT; A[crc64338477404e88479c.Generic AnimatorListener] --> B[android::animation ::AnimatorListenerAdapter]; A --> C[mono.android.IGCUserPeer];
```

The diagram illustrates a generic class, `crc64338477404e88479c.Generic AnimatorListener`, which is shown in a grey box at the bottom. Two blue arrows point from this generic class to two separate boxes above it. The left box contains the text `android::animation ::AnimatorListenerAdapter`, and the right box contains the text `mono.android.IGCUserPeer`. This indicates that the generic class implements or inherits from both of these interfaces or classes.
