

androidx::appcompat
::widget::AppCompatTextView

mono.android.IGCUserPeer

crc6477f0d89a9cfd64b1.Forms
TextView

```
graph BT; Base[crc6477f0d89a9cfd64b1.Forms TextView] --> Derived1[androidx::appcompat ::widget::AppCompatTextView]; Base --> Derived2[mono.android.IGCUserPeer];
```

The diagram illustrates a class hierarchy. At the bottom is a gray box representing the base class: `crc6477f0d89a9cfd64b1.Forms TextView`. Two blue arrows point upwards from this base class to two separate white boxes above it. The left white box represents the class `androidx::appcompat ::widget::AppCompatTextView`, and the right white box represents the class `mono.android.IGCUserPeer`. This indicates that both the `AppCompatTextView` and `IGCUserPeer` classes inherit from the `Forms TextView` base class.
