

androidx::coordinatorlayout
::widget::CoordinatorLayout

mono.android.IGCUserPeer

crc640ec207abc449b2ca.Shell
FlyoutLayout

```
graph BT; A[crc640ec207abc449b2ca.Shell FlyoutLayout] --> B[androidx::coordinatorlayout ::widget::CoordinatorLayout]; A --> C[mono.android.IGCUserPeer]
```

The diagram illustrates a class hierarchy. At the bottom is a dark gray box representing the base class, 'crc640ec207abc449b2ca.Shell FlyoutLayout'. Two blue arrows point upwards from this base class to two separate white boxes above it. The left white box represents the class 'androidx::coordinatorlayout ::widget::CoordinatorLayout', and the right white box represents the class 'mono.android.IGCUserPeer'. This indicates that 'Shell FlyoutLayout' inherits from both of these classes.
