

androidx.appcompat.widget.
AppCompatEditText

mono.android.IGCUserPeer

crc64e1fb321c08285b90.Entry
CellEditText

```
graph BT; C[crc64e1fb321c08285b90.Entry<br/>CellEditText] --> A[androidx.appcompat.widget.<br/>AppCompatEditText]; C --> B[mono.android.IGCUserPeer];
```

The diagram illustrates inheritance relationships between three classes. At the bottom is a dark gray box representing the base class: `crc64e1fb321c08285b90.Entry` and `CellEditText`. Two blue arrows point upwards from this box to two white boxes above it. The left white box represents `androidx.appcompat.widget.AppCompatEditText`, and the right white box represents `mono.android.IGCUserPeer`. This indicates that `CellEditText` inherits from both `AppCompatEditText` and `IGCUserPeer`.
